

## UNIVERSAL 4U125KW - barna

Terméktípus 4U-125KW-10

### Alapvető információk

|                              |                          |
|------------------------------|--------------------------|
| Életkor kategória            | 2 - 15 év                |
| Minimális terület            | 7,3 m x 7,7 m            |
| A berendezés mérete ho. szé. | 4,38 m x 3,78 m x 3,13 m |
| Szabadesés magasság:         | 1 m                      |
| Terhelhetőség:               | 324 kg                   |
| Max. felhasználók száma:     | 6                        |
| Esésvédő felület:            | az EN 1177 szabvány      |
| Rendeltetés:                 | kültér                   |
| Alkatrészek elérhetősége:    | a gyártó szállítja       |
| A szabványnak való           | ČSN EN 1176 - 1, 2, 3    |

### Anyag

Emelvény - HPL  
Fém részek - szerkezeti acél  
Műanyag részek - HDPE  
Csúszdák - üvegyapot  
Tető - HPL

### Felületkezelés

Duplex rétegű égetett porfesték védi  
Tűzihorganyzás

### Leírás

The support structure of the tower unit is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life or duplex powder coated with coat curing according to RAL to prevent corrosion. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The slide is made from fibreglass. The surfaces of the slides, steps, etc. are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The platform is made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). The roof is made from HPL (High-pressure laminate, which is characterised by high colour stability, UV resistance and water resistance). All fastening material is galvanized or stainless steel.

### Felszerelés

Tower, slide, A-shaped roof, 2x barrier, sloping ramp with steps and metal handles, metal beam.
